# Gratuitous FUCK in Cannon

by several concerned citizens who certainly don't have anything to do with the production of the finest newspaper in the world, the Toike Oike.

**UNIVERSITY OF TORONTO** - The October issue of the Cannon, scrutinizing Toike censorship, actually contained an uncensored version of the word "fuck" (sic). For those who missed it, the Cannon is another Engineering newspaper. The aforementioned vulgarity appeared on the back page under the "Rantrostrum" section.

Those who read the Cannon expect an insightful, intelligent, civil exchange of ideas and viewpoints. Its readers are expecting mature discussion, not gratuitous profan-

ity. Some readers, unprepared for these degree of obscenity found in this formerly respected mecca of journalism, found themselves feeling faint and nauseous. We here in the Toike feel that perhaps the Review Committee should cast a critical eye on the Cannon's writings, and STOP PICKING ON US!!!! I mean, what's wrong with the friggin' headline "Separatists? Fuck 'em!" (sic) But no... we get a stupid "Censored" label slapped on it. Fuggin' almighty right-wing separatist disloyal traitorous mutant commie traitors! Ever hear of the Fifth Amendment? *Podexes prefecti sunt!*

Oh, was that Latin? Sorry, it just sort of slips out when we're angry. Won't happen again. *Caudeces*. Oh, shit,

supposed to TEACH us? I say "fuck the profs-- We want lecturers, who are hired for their teaching abilities".

[we're listening; see this month's Cannon Poll on this page--Ed.]

Section from the October 10, 1995 issue of "The Cannon." Disgraceful.

sorry.

In other news, we also object to the sloppy proofreading. For instance, the sentence "I do not claim that the Toike Oike should be required reading for the cultured of our society" was obviously a typo. We're sure the original sentence was "I do claim that the Toike Oike should be required reading for the cultured of our society."

And, for the record, we managed to express our concerns without writing the word "fuck".... oh, fuck, we almost made it. *Stultisimus maximus sumus*. ■

## Left-handed fight the power

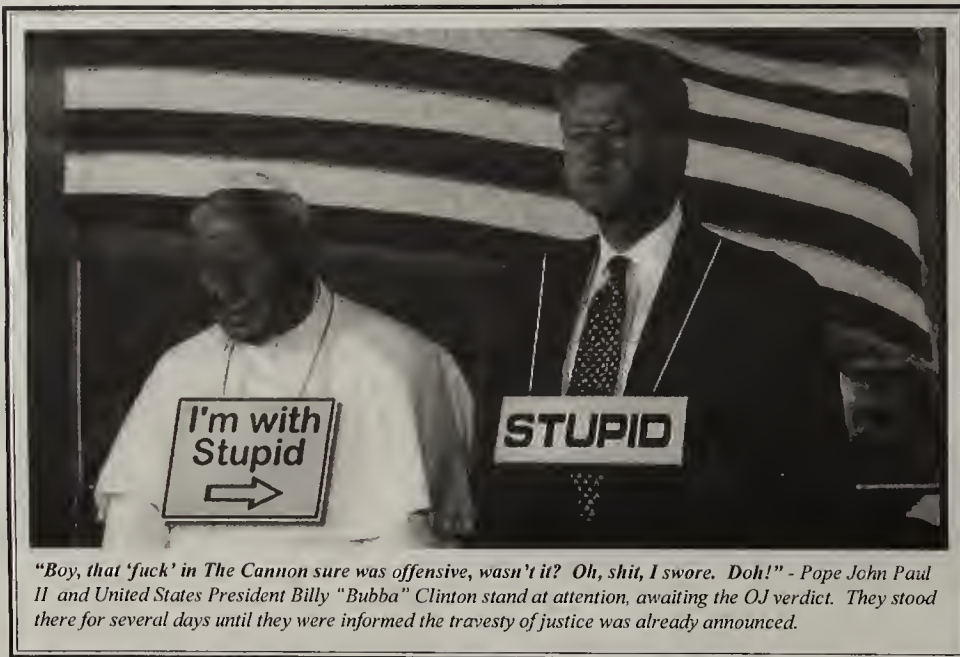

by Alex S. Ross

**TORONTO** - After hearing the news that gays and lesbians were seeking their own school system, the Lefties Educational Foundation Team (LEFT) announced that they too would be lobbying for a separate educational system.

At a press conference, LEFT's president and founder, Lefty Leftowitz, announced the unprecedented move. "For too long, we, the left-handed people of North America, have been discriminated against by the right-handed majority!" After being pelted with tomatoes, he continued: "We need a school system which will allow young left-handers to properly explore their hand identities without fear of prejudice from leftophobic bigots."

When asked by a member of the Toike Investigative Team (T.I.T.) what the curriculum at a separate left handed school would be, Leftowitz replied: "We would eliminate the right-centric viewpoints which are so harmful to our left-handed youth. For example, instead of saying: 'Yes, Tommy, that's the right answer', teachers would say 'Yes, Tommy, that's the LEFT answer.'"

When asked whether the city is considering LEFT's demands, Councilor Tom Jacobek replied: "Go away! Can't you see I'm in the middle of a lap dancing investigation?" The T.I.T. reporter was then, at Councilor Jacobek's request, ejected from Humper's Tavern and Strip Bar. ■

"Boy, that 'fuck' in The Cannon sure was offensive, wasn't it? Oh, shit, I swore. Doh!" - Pope John Paul II and United States President Billy "Bubba" Clinton stand at attention, awaiting the OJ verdict. They stood there for several days until they were informed the travesty of justice was already announced.

## 4,489,002 Killed in Accident

FROM THE PLACE WHERE THE ACCIDENT OCCURED - Four million, four hundred, eighty-nine thousand and two people were killed in a horrendous accident involving elements made of earth, metal, fire, and other assorted things. In addition, three hundred and fifty-six million, seven hundred and twenty thousand and twelve citizens were injured in the gratuitous disaster.

The cause of the accident

### BREAKDOWN OF INJURIES:

34.379%	- Fotel
36.454%	- Semi-Fotel
67.565%	- Just really gross looking
74.323%	- Involving dead elk.
65.176%	- Not involving dead elk.
1.232%	- Unrelated.
2.321%	- Committed by O.J.

(Percentages may not add up to 100% due to rounding.)

was found to be either natural or man-made. It is unknown whether the accident could occur again in a specified area, such as Newark, New Jersey.

One important official was quoted as saying "ouch" when a T.I.T. reporter stepped on his mangled elbow.

One victim declared the accident to be the worst of its kind ever in the history of the universe. "Boy, it was bad," he said, rubbing a charred gonad.

Disaster experts were unwilling to respond to our constant requests for foot rubs. ■

# Med Sci's announce plans to separate from Canada

by Rono (don't call me OJ either)  
Sinha

The Medsci's have just unveiled a bold plan to separate from the rest of Canada. Medsci leader Looselegs Blowhard (whom some eng sci's might know from her other job at Prostitutes R Us nightclub [featuring **absolutely no lap dancing**, for decency's sake] has said the medsci's are fed up with being mistreated and abused by everybody.

## "...lap dancing..."

Here are a list of grievances:

**Clarity:** For thousands of years Medsci's have considered it their domain to write illegibly on prescriptions, and talk exclusively in latin. However, with the new Shoppers Drug Mart Healthwatch system, and pressure from patients, more and more doctors are being forced to learn communication skills. "Next thing you know, patients will be able to understand us," said an outraged medsci. "We might as well say goodbye to our drug kick-backs."

**Medicare Cuts:** With the thoughtless medicare cuts being imposed by the Harris government, medsci's will now only be able to afford 3 BMWs, and country club membership in only 5 cities.

**Bob Rae:** Just because.

**The Length of the Paul Bernardo Trial:** "Canadians should learn something from the Americans," said Blowhard. "If the Bernardo trial had been even half as long as the OJ trial, we could have employed at least 30 more doctors. I mean, there wasn't even a decent 'DNA tampering' conspiracy to liven things up."

**No Knives in the Chunky Noodle Soup Comercial:** While operating

on a cadaver, a medsci discovered that the chunky noodle soup (found in the cadaver's intestine), tasted much better when eaten off the knife. (TIT has since discovered that some of the chunks may not have come from the soup). The medscis are thus outraged that the commercials only feature "spoon" and "fork" disputes. "Just another example of blatant discrimination," said yet another medsci.

**Sex:** "We need more," said a medsci. Blowhard was not available for comment.

The medsci's also released a press statement, but it was illegible.

The issue will be decided by a binding (unless one side wins, in which case another referendum will be immediately held) referendum held on October 31. TIT has learnt the question that will appear on the ballot:

## "...sex with Cindy Crawford..."

If you can retain you Canadian Passport and Citizenship, if you can still use the Canadian Dollar, if you are paid \$200 000 a year by Canada, and bought a home (with at least 5 bedrooms and a 5 car garage) and 7 cars by Canada, if you can have sex, whenever you want, with you choice of Cindy Crawford or Brad Pitt, and if you can have an unlimited supply of chunky noodle soup, would you like to separate from Canada and form a sovereign nation?

Blowhard has also told TIT that if Quebec separates from Canada, the medsci's will immediately separate from Quebec as well. TIT tried to reach Prime Minister Jean Chretien for comment, but he was busy gnawing his left hand. Keep reading the Toike for more on this fast breaking story. ■

## MailRoom Continued...

if our government over the past few years had the slightest clue as to how to manage money, then maybe, just maybe, we wouldn't have such a crippling debt, as prototypical rich bloodsuckers and dishonest dirtbags take, nay, essentially **pillage** the hard working middle-class, average Joe, OJ trial canonizing, die-hard Maple Leaf-even-through-the-Ballard-years-**Yes-I-do-own-an-Allan Bester-jersey fan**, you got a problem with a K-Car, um... you know, "the little people."

And what should a fiscally responsible government do with their money?

Give it to us, naturally. Because we're needy. Of money.

A nice big fat wad of dough so we could spend it on expensive food, vacations, cars, and other frivolous things. Now *that* would be our kind of government.

Oh, the mail...

A letter for the Angry Serfs!

Dear Angry Serfs!

I have an angry fresh spot on behalf of all angry fresh Angry's, cuz we are the fresh ones! On Fresh Week, we received your glorious Ford hats and were not able to participate in the presidential election of president (it would have been victory and beat the feds with it). But the angry nation's wrath, when we finally received our hard hats, I fresh kits, we didn't even get one of those sample letters! Oh TIT Sac! But I'm looking for that every day. Fresh get angry! We're a proud proud citizen! Shady citizens, sure, I'm a fresh but I'm an angry citizen. I fresh, so treat me with respect. Boy from Flangry!

One Angry Fresh 919.

P3 I'm Angry enough to be an Angry Serf?

**There's something** about swirly handwriting that makes the statement "I am a female Frosh" sort of redundant. Thankfully, *One Angry Frosh* here, has spared us the pain of reading the obvious. She (well, we're pretty sure its a she) starts off "Dear Angry Serfs!" (oh yeah, we forgot the more than ten exclamation marks that are used). And she's bitching... we don't even have a key. You don't here us bitching. (Well, a bit. OK, a lot.)

And, We had another letter. But We lost it. You know, sheer volume stress.

## Mailroom Contest

We've received several entries, most of them pretty (but not quite) accurate (and don't believe everything you see on the internet). Although no one is sending us new versions of it. We'll procrastinate until next issue. But keep sending stuff.

# Distinct culture in Quebec - study finds

by Kurt Breede

TORONTO, Ont. - A private study has determined that a distinct culture does in fact exist in Quebec. The culture, labeled "Ribbitum Separati", is a single-celled bacterial culture which has spread rapidly since its conception - carbon dated by specialists to as far back as the early 19th century.

According to the study, over 60% of all Quebecois are infected with the culture. Preliminary studies have diagnosed the primary symptoms of infected hosts. These include:

- irrational behavior including confusion, xenophobia, hostility, lack of interest in professional sports
- loss of limbs
- slurred and distorted speech
- infertility
- urge to commit economical, political and social suicide

Provincial government officials have disclosed plans to isolate and contain the culture by the end of October. Details to follow in upcoming issues. ■

(The following completely gratuitous headline has absolutely nothing to do with the subsequent article.)

## SEX! SEX! SEX! Er, and other stuff.

by Nada B.

provided a one week notice is required.

The Toike Investigative Team (that's right, the good ol' T.I.T.I.) has uncovered the following draft memo, which bodes profound consequences for all engineering students and, in fact, the world.

\* \* \*

TO: ALL ENGINEERING STUDENTS  
FROM: OFFICE OF THE DEAN  
SUBJECT: EXCESSIVE ABSENCE  
EFF. DATE: NOV.1, 1995

Due to the excessive number of absence from the engineering classes, the following rules and procedures will be put into effect as of the above date.

**SICKNESS:** Illness will no longer be an excuse. We will no longer accept your doctors' statement as proof, as we believe that if you are able to go to the doctor, you are able to come to school.

**DEATH:** (other than your own) This is no excuse; there is nothing you can do for the deceased and we are sure that someone else with a lesser position can attend to the arrangements. However, if the funeral can be held in the late afternoon, we will be glad to let you off one hour early,

**ABSENCE FOR AN OPERATION:** We are no longer allowing this excuse on petitions. We wish to discourage any thoughts that you may need any operation as we believe, as long as you are a student here, you will need all of whatever you have and you should not consider having anything removed. We accepted you in this faculty as is. To have anything removed would certainly make you less than what we accepted you for.

**RESTROOMS:** Going to the restrooms will only be allowed in between lectures. And due to limited space, we will follow the practice of going in alphabetical order. For example, those whose last names begin with "A" & "B" will go from 9:00 to 9:10. "C" & "D" will go from 10:00 to 10:10, and so on. If you are unable to go at your appointed time, wait until the next day when your turn comes again.

**ATTENTION:** Entirely too much time is being spent in the cafeteria and the atrium. As we believe that the cafeteria food and atmosphere pose a hazard to your brain cells, a maximum of 15 minutes per day per student is allowed. Also, toxic safety gloves should be worn while eating cafeteria food, as we will no longer accept chemically burned hands as an excuse not to write exams. ■

## CORRECTION

It has been brought to our attention that some of our readers were not offended by the last issue of the Toike. To remedy this, we have included the following open letter:

Dear \_\_\_\_\_,  
(insert name of your demographic group here)

You make me sick. Whenever I see you I just want to puke. And it's not just you, but your people. God, your kind are just so fucking annoying, I feel like just...puke! You are the scum of the earth, the gum under my shoe, the hardened snot in my nose. You and your kind just suck really bad! I'll see you walking down the streets, and I'll just walk on the other side - I don't even want to be breathing the same air as you! You and your people think you have rights. My hairy ass you do! You just make me want to spew hairy chunks of vile all over my body. Sicko! You make me sick!

## Exotic car show hits Toronto

by Kurt Breede

TORONTO, Ont. - Public speculation has it that a very large exotic car show will be taking place in Toronto sometime this year. These rumours have radiated in the past months by the appearance of a number of the supposed

**"...O.J. did it"**

show floor models on the west side of St. George Street near the University of Toronto campus. "There's something big going on, real big", stated one student - who confesses he's been eyeing the show cars since they've been accu-

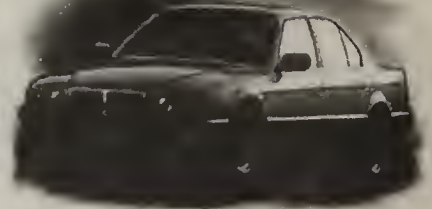

mulating in early September.

Our T.I.T. reporting staff sneaked a preview of the cars to be displayed in the much anticipated show. Here's a small taste:

- Honda Civic Si
- Mercedes Benz 400E
- BMW 325i
- Eagle Talon ESi
- Acura Integra

In unrelated news, student participation in recent Tuition hike protests have dropped down drastically.

In even more unrelated

news, international student enrollment may or may not have jumped 30% this year.

And in even more completely and insanely unrelated news, in fact - it's probably not even worth mentioning, but we will anyway: O.J. did it. ■

## Engineering Positions Available

The Government of Canada is seeking 200-300 Engineers to participate in an ambitious, short term project. Successful candidates will work as part of a development team in the design of a large retaining wall approximately, in length, the circumference of a large province. Four types of positions will be required as follows:

**Development Project Leader:** These individuals will oversee groups of 50 Engineers in the design and construction of the retaining wall structure. Project leaders will oversee the designers in their segment and ensure the plans are ready by the appropriate time. A working knowledge of the Russian or German languages is an asset as several Russian military personnel are being consulted for this project as well as many German residents.

**Project Design Engineer:** Engineers are required to design a large, electrified, retaining wall. Design considerations include: Cost, short construction time, and fortification. Design Engineers must consult heavily with military and police advisors.

**Fortification Designer:** Persons applying for this position will be required to design defensive structures for containing a large population behind a containment wall. Preference will be given to applicants with experience in prison design, and those having seen the movie, "Escape From New York."

**Construction Project Manager:** The time allotted to the complete construction of this wall is just slightly over 8 hours. The project will commence at 11:00pm and must be completed by 7:00am the next morning. Project Managers will oversee the construction planning and logistics. While cost is a consideration, sufficient funds will be made available to ensure the project is completed on schedule.

All successful candidates will be required to ensure the project is set to commence following the upcoming Sovereignty referendum. Notice will be given to the Construction Project managers by 10:00pm on the project start night. As time is an asset, candidates must be able to commence work immediately.

The Government of Canada is an Equal Opportunity Employer.

## Toike Oike Helpful Stuff

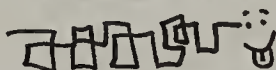

One of the most essential tools in Skule™ is the taking of notes. It is important you take notes properly in order to survive your four or more years here. In the spirit of helpfulness, the Toike Oike is proud to present its guide on:

### How to take notes in class.

1. First, write the date at the top of the page, and underline it twice.

October 8

2. When the prof starts talking, look at him with enraptured interest, as though your very life depends on the knowledge he is imparting unto you. Then, draw various interlocking rectangles, like this:

3. Later in the lecture, you can color in any holes in the date:

October 8

4. If you're sitting next to someone you can trust, you can use this time to discuss people sitting nearby:

↖  
Dog Head's  
friend, Horse  
Face

↗  
Dog  
Head

5. If your pen runs out, do not panic. Instead, sit back, stare at a point two inches above your prof's head, and have elaborate sexual fantasies. Do not tell your neighbour about these.

6. Several weeks after the lecture, go out and frantically photocopy the notes of someone who actually wrote down what the prof was saying.

# "...Wipe My Ass"

by Christian Bosio

ATLANTA - With the World Series concluded, the Cleveland Indians and Atlanta Braves have decided to change their names. Years of pressure by Native Indian groups, as well as near nauseating levels of political correctness in our society has prompted the owners to change.

"It was mainly all those damn letters we kept getting. They came in faster than we could burn 'em," said Atlanta owner and CNN bigshot Ted Turner. "Hell, I was even using those things to wipe my ass."

The new names and uniforms were revealed yesterday. The ex-Braves were sporting new pink and purple uniforms. Their new name? "Atlanta Pink Bunny Rabbits. Its a marketing play. The kids'll eat it up. We don't pay those ad wizards all that dough for nothing," said a grinning Ted Turner. "We'll replace the Tomahawk chop with the Pink Bunny Hop!"

Cleveland's new duds were released without much fanfare.

The Cleveland Bushy Tailed Vermin and their mascot, a dumb looking squirrel named Zarky, were viewed at a mostly empty press conference. "Kind of drab, just plain brown uniforms," said a disinterested reporter. "Who cares, they lost."

Some groups, however, did seem to care.

"They're not getting away with this! We'll fight it all the way!" said irate Queens Park spokessquirrel/media personality/famous actor Zarcon. "We'll protest, we'll riot, we'll kill the bastards! This is an outrage! It's a mockery of our culture!"

Bunny rabbits were eerily silent and could not be reached for comment. However, the feared underground bunny rabbit mafia, based out of Brooklyn, was said to have been responsible for several bomb scares in the Atlanta area, one bomb left in the Toike mailbox, and possibly even the "accident" reported in the Toike, that killed 4,489,002. A sympathiser was quoted as saying "We're playing hardball with them. No pun intended." ■

## Toike obtains the real referendum question

## Did YOU Know?

Twelve dozen hyper-intelligent, super-strong, undead, winged, phaser-equipped, striped, ninja llamas would not be able to take over the world due to their lack of opposable thumbs. However, if a mad scientist or covert terrorist organisation were to give them opposable thumbs, mankind would be conquered in 19.7 days unless a similar herd of Jedi wildebeests was created to deal with the llama menace. But then we'd have to deal with lots of wildebeest droppings.
